Subject: Keeley proposals for gas tax

Dear Margie Walker

I drive, vanpool, bike, and walk.

I am completely in favor of Mr. Keeley's recommendations to attach a tax to gasoline.

The funds are to be directed toward, among other purposes, decreasing fossil fuel use for transportation.

This is important to me.

I am convinced that our citizens and businesses could do much more to conserve energy, and I welcome governmental action toward this important goal.

Thank you
