Dear Mark,

Attached is a business community coalition letter and list of questions for consideration by the Commission on the 21st Century Economy regarding the Tax Package to be considered in workshops in August and at a Commission hearing in September. The letter is signed by a broad representation of the California business and economic community and expresses our opposition to or deep concern about several key components of that package.

Thank you for your consideration of our concerns on this. Please contact me if you have any questions.

Best regards,

Kyla Christoffersen
Policy Advocate
