Subject: Tax Revenue Structure

To Whom it may concern:

As a constituent of California, I would like to voice my position regarding the tax revenue structure for which the COTCE will issue a report to the CA legislature next month. Simply put, I would very much like to see a more efficient and environmentally sensible tax structure that an increase in the gas tax would provide.

I sincerely hope you are able to persuade the governor and legislature to adopt a gas tax that would undoubtedly improve California's economy and environment.

Thank you for your time and consideration.
