All I can say is you must be kidding. If the final report comes out as reported in the press, you are going to see the greatest uprising in centuries. This could top the Boston Tea Party and the revolution. Our super rich need to have their taxes increased several fold, not cut. For the first time since 1929, about 22% of the nation's income went to the top 1% many of whom "were born on third base and think they hit a triple." You won't get away with this.

Most sincerely,
