The Recommendations you are proposing were analyzed by the NON-PARTISAN California Budget Process (see attachment) that shows that these changes, though they would benefit the wealthy and corporate interests, they would NOT solve the budget problems (and would in fact in the long term make them worse). They try to shift even more burden to the middle class and SMALL business people like me !! I am sick of the wealthy and corporate interests NOT paying their share for the needs of the state that provides THEM with a good work environment, good roads and services, good schools and good workers. This ridiculous attempt to protect the wealthy once again from paying their fair share WILL FAIL and HAS BEEN EXPOSED ONCE AGAIN. The legislature NEEDS to do A REAL Non- Partisan look a Tax Reforms. Not a sham to jam the reforms the governor wants down the throats of the citizens of CA, WE VOTED DOWN WHAT HE WANTED and this BACKDOOR APPROACH will not work either!
