

Dear Commissioners:

The purpose of this note is to be sure each of you (as well as the public) is aware of the work requested of the staff. As such, requests made in writing to the staff will be circulated to Commissioners and posted on the Commission web site. Attached are two such requests. Please note that these requests were incorporated in my recent memorandum dated April 29, 2009 to Commissioners. (This memorandum is now posted on the Commission website.) The staff will package these requests into various models which will be circulated to all Commissioners and discussed at our next meeting on June 16, 2009.

Please let me know if you have any questions about this process.

Best regards,

Gerry Parsky
