Comparison of Oil Production Taxes
In Top 10 Oil Producing States

Compares state and local taxes (property, sales, corporate income and severance taxes) assessed on a representative company producing 100,000 barrels of oil a day in each of the nation’s top ten oil-producing states. The price of oil is assumed to be $58/barrel.

This analysis was conducted in December 2008 by José Alberro and Bill Hamm affiliated with LECG – a global expert services firm based in Emeryville, CA that provides independent economic analysis.
